

# V SERIES

**CYBEX®**

# V Series

Provides exactly the cardio experience that moderate-use commercial facilities need without the added features that they don't.

A simplified design combines with a modern aesthetic and appeals to a wide range of exercisers. Optional wireless connectivity lets facilities keep track of details.

# Treadmill

Sleek design that includes an IS4 Suspension System, which compliments the mechanics of running. It has a “soft” landing zone on the front of the treadmill, a firm middle area and is rigid at toe-off.

- Modern aesthetics
- Reinforced upright design
- Low step up height - 8"
- 20" running surface
- IS4 Suspension System

**CYBEX®**

## Upright Bike

A comfortable seat with single-hand adjustment for quick and easy positioning. Rugged crank arms for long-lasting durability.

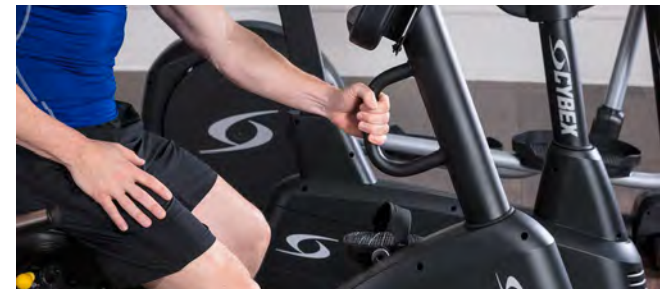

- Single handed seat adjustment
- 25 resistance levels
- Easily adjustable pedal straps

## Recumbent Bike

High-back seat for comfort. The step-through design and D-loop handle allow for easy access.

- Sleek walk-through design with D loop handle
- Side grips with contact heart rate
- 25 resistance levels
- Easily adjustable pedal straps

**CYBEX®**

## Cross-Trainer

Compact and sleek design that is ideal for a wide range of exercisers.  
The smooth and natural-feeling ellipse path provides effective results.

- 18" stride length
- 25 resistance levels
- Oversized non-slip pedals

**CYBEX**

# Entertaining Exercisers

Provide ample entertainment options to exercisers.

A secure tablet holder allows a facility to mount their own tablets, which lock in place, or let exercisers bring their own and secure them at an optimal viewing angle during workouts.

A vivid attachable HD 1080p TV 15" screen features an anti-glare coating and provides premium entertainment for exercisers.

# Digital Facility Management

Optional wireless connectivity provides facility owners and managers with detailed equipment use information, insights into exerciser habits, proactive service alerts, software updates and more. Being connected makes owning and maintaining the V Series easy.
